HOW TO: CHANGE THE TIME ON YOUR DISPLAY
(for NEC SV8100 Phone Systems)

1. Leave the handset in the cradle

2. Press Speaker

3. Enter the service code (usually 728, but may be 828 for some migrated systems)

4. Enter the accurate time: two digits for the hour and two digits for the minute, using the 24-hour clock ("military time"). Note: Although you enter, for example, 13:30, it will read 1:30PM on your phone.
